

CLIFTON COLLEGE

16th January, 2010

Dear Parents

Karl Hopwood Lectures on 'E-Safety in the 21st Century', 3rd February 2010

You may recall that in the Deputy Heads' Letter at the end of last term I mentioned that as part of our ongoing PSHE programme the whole School will be having lectures and discussion sessions on aspects of E-safety and the cyber world. Karl Hopwood, who is an internationally renowned specialist in this area, addressed the whole Common Room on these issues at the start of this term. His talk was extremely enlightening and very useful in helping the School to protect and educate our pupils. He will be coming to address all year groups in separate sessions on Wednesday 3rd February.

I am delighted to announce that the School has managed to extend his visit to enable him to address any parents who wish to learn more about this. Apart from having an opportunity for parents to learn more about these issues, I hope it will also enable you to discuss these issues with your sons and daughters. This talk to parents will take place at 6.30pm in the Prichard Room. If you would like to attend, then please e-mail Mrs Crawford or return the attached slip. Seating is limited, so please book yours now to avoid disappointment!

With best wishes

Yours faithfully

J P Middleton
Deputy Head
